PRINCIPALS PEN

We certainly have been 'resilient' the last two weeks as it has definitely thrown some curveballs; now that we have many confirmed positive cases within our school. As the time has progressed, you would have seen the daily updates on our Community Facebook Page and we will continue to do this next week. We want to be transparent as this helps you be informed on what is happening and gives you accurate information so you can make the best decisions for your whānau. The adult LEGENDs are working incredibly hard and showing 'excellence' by doing their best to follow the plans in place and supporting our LEGENDs through this 'different' term 1 time. We are expecting the numbers to rise as more and more LEGENDs are isolating as household contacts and we are expecting that more staff will begin isolating.

As a school, through the covid pandemic, we have always focussed on the well-being of all. We are trying to make the learning at school as fun as possible, with the limited numbers as well as touching base with whānau who are in isolation as household contacts and where our LEGENDs have tested positive. Although we have delivered hard packs that can be used, your health and looking after the whānau is more important. Please continue to email and touch base with us, should your LEGEND be learning from home next week, or should they become positive.

CLOVERLEA SCHOOL PLAY-BASED LEARNING

Play supports a smooth transition to school from early childhood settings.

Play helps LEGENDs build life skills through exploring, experimenting and solving problems using equipment.

Play helps LEGENDs develop their fine and gross motor skills (small and big movements).

LEGEND's form friendships through play and learn to work together.

LEGENDs have a choice in what they play with and how they play. Their learning is extended through their interests.

Play supports LEGENDs to talk with others and share equipment.

LEGEND's get a chance to practise our school values.

Room 12

“Children need the freedom and time to play.

Play is not a luxury. Play is a necessity.”

Room 12 show Determination to challenge their thinking during play to be creative in many ways. They are always showing rEsilience when things are tricky and are iNclusive towards others with the equipment. Play is the brain’s way of learning in a fun and safe environment.
